RE: Fredrickson Town Center/FRETOC Amendment

Dear Councilmembers,

Central Pierce Fire & Rescue fully supports the FRETOC Amendment on the above referenced project to increase the square footage allowance of retail space.

The district encourages new construction as it increases our revenue. Allowing for a larger “big box” anchor at the site would draw in smaller businesses which would anchor development of the location. We support the retail development and new construction of the Frederickson Towne Center.

Feel free to contact me if you would like to further discuss the fire district’s support of this amendment.

Respectfully,

Baron Banks
Deputy Chief of Administration
Central Pierce Fire & Rescue
